A majority of the Committee may appoint a representative to act for and on behalf of the Committee with all of the powers of the Committee. Until such time as all of the lots are sold and improvements are constructed on each lot. Neither the members of the Committee, either in their individual or in their collective capacities, nor the Grantor, shall be responsible, or have any liability, whatsoever for any defect in any plans, specifications or other data submitted to, approved by or revised by the Committee, or in any work done or improvements made pursuant to such plans and specifications.

In no case may the drainage from one lot drain on to any other lot, except as allowed by the Drainage Report.

It is the responsibility of the owner to obtain from the Grantor the latest copies of the Drainage Report and as-built plans for the use of design by the owner's architect or designer.

5. Compliance with the Grading Plan and Development Plan. All construction of improvements on each lot shall comply with the City of Albuquerque approved Grading Plan and Development Plan for the Subdivision. The Committee may request that a New Mexico licensed civil engineer perform a grading and drainage plan with his seal affixed to the plan. However, the Committee shall not be liable to the owner or any other person for approval of plans, which are contrary to the Grading Plan and Development Plan.

It is the responsibility of the owner that all structures built on each lot are in compliance with the soils report, a copy of which is on file with the City of Albuquerque and is also available at the office of the Grantor. Notwithstanding anything to the contrary, any lot may be used as sales office, model home complex, or storage and construction yard during the construction and sales period. All such temporary uses must have the prior approval of the Committee, which shall establish the requirements for such uses.
